Public Comments:

Alan Ward: Two years ago he purchased 38 acres and obtained a permit to fence the area. He also owns the DTE easement located on the property. He has had to remove personal property from the neighbors from his property. Neighbors were present at the September meeting and are upset because they think they own the rights to the utility easement. He is trying to do things the proper way but neighbors are still saying he is destroying the neighborhood. Development of the acreage is not in his plan.

Mike Siegfried: Does the Township have a 5-year plan? Twenty years ago the plans for development of the Township property was estimated at \$559,000, so there has not been too much of an increase for development.

Board Comments: None.

Meeting adjourned at 4:29 p.m.
